

At the Max Planck Institute for Medical Research, one of the 83 institutes of the Max Planck Society for the Advancement of Science, physicists, chemists, materials scientists and biologists create knowledge of long-term relevance to life and basic medical sciences. The Institute invites applications of scientists for the position of

Head of the Central Light Microscopy Facility (m/f) (Code number 05/2017)

The successful candidate is expected to contribute scientific and technical expertise in optical microscopy, especially related to advanced imaging systems. He/she will support colleagues in executing microscopy tasks including data acquisition and analysis. He/she will also be responsible for the selection and support of microscopy hardware and software. The starting date of the position is October 2017 or a later agreed-upon date. The position will be initially for two years, but the possibility to transfer it into a permanent position exists. The candidate should have a **PhD in a natural sciences discipline** or a comparable qualification.

The salary and benefits are based on the TVöD guidelines. The Max Planck Society is committed to increasing the number of individuals with disabilities in its workforce and therefore encourages applications from such qualified individuals. Furthermore, the Max Planck Society seeks to increase the number of women in those areas where they are underrepresented and therefore explicitly encourages women to apply.

For further information, please do not hesitate to contact Mrs. Fabienne Höfer-Elfner (0049 6221 486 - 311) or Ms. Esther Seiberth (0049 6221 486 - 310) from human resources.

Please submit your application, including a cover letter (explaining background and motivation), CV, contact names and addresses of at least two referees familiar with your work via e-mail as a single PDF file with the above reference until July 2, 2017 to
